

Certifications

Choice materials are utterly important to achieve the desired performances. Being the expertise of metal producer for over a decade we are using quality materials and we keep applying for certifications to keep them in record.

- We are ISO certified for the capability concerning valve and pipe fittings.
- Our bronze alloyed valve for hydrant and stainless steel booster valve for fire brigade are proved to be in the compliance with WaterMark Scheme.
- Our sanitary fittings are 3-A certified. It strictly defines the processing roughness and specific designs to meet the requirement in food-grade applications.
- Our products are PED type approved in relation to pressure equipments per CE directive 97 / 23 / EC Module H.
- We bear in compliance with the policy that conflict minerals contained in our products shall not be derived from sources that finance or benefit armed groups in the DRC or adjoining countries.

The issuance of this process certificate for the listed Accepted Practices is based upon the voluntary certification, by the applicant for it, that the equipment listed above conforms fully with the 3-A Accepted Practice(s) designated. Legal responsibility for conformance is solely that of the holder of this Process Certificate, and 3-A Sanitary Standards, Inc. does not warrant that the holder of a certificate at all times conforms with the provisions of the said 3-A Accepted Practice(s). This in no way affects the responsibility of 3-A Sanitary Standards, Inc. to take appropriate action in such cases in which evidence of nonconformance had been established.

Pressure Equipment Type Approved

Certificate of Compliance

No. 11160111.SME0088

Certificate's: SME Industrial Co., Ltd.

Holder: 222 Shanfeng Road, Jinshan, Shanghai, China

Certification ECM: Ente Certificazione Macchine · Safety Compliance Mark · Type Approved®

Product: Storz Hose / Female / Adapters / End caps / Blank caps / Reducers, Cam and Groove Couplings, Tank Truck Couplings, Sanitary Couplings, Flange

Couplings, Guillmeim Couplings, Dsp Couplings, Mortar Couplings, Steam Couplings, Gasoline Couplings

Verification to: Standard related to CE Directive(s):

97 / 23 / EC (Pressure Equipment) Module H.

Conflict Minerals Sourcing Policy

Columbite-tantalite (coltan), cassiterite, wolframite and gold, or their derivatives, including tantalum, tin, and tungsten, originating from the Democratic Republic of the Congo (DRC) and adjoining countries (often referred to as "Conflict Minerals") are sometimes mined and sold by armed groups to finance unfair labor practices or human rights violations. Some of these Conflict Minerals can make their way into the supply chains of the products used around the world.

It is the policy of SME to avoid Conflict Minerals that directly or indirectly finance or benefit armed groups in conflict-affected regions.

As part of SME's commitment to corporate responsibility and respecting human rights in its operations and in its global supply chain, SME will endeavor to only procure raw materials containing Conflict Minerals that do not support conflict.

In support of this sourcing policy, SME will:

Exercise due diligence with relevant suppliers consistent with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas and encourage our suppliers to do likewise with their suppliers.

Provide, and expect its suppliers to cooperate in providing, due diligence information to confirm that any Conflict Minerals in its supply-chain do not support conflict.

Commit to transparency in the implementation of this policy by making available reports on its progress to its customers, relevant stakeholders, and the public (as required).
